

ABBYY® PDF Transformer 3.0 Pro

Convert. Create. Adjust.

Your All-in-One tool for easy and fast work with PDFs

ABBYY PDF Transformer 3.0 Pro allows users to easily and efficiently work with PDF files. Any type of PDF, even scanned PDF files, can be converted into MS Office formats. The user can also create searchable PDFs directly from within MS Office or adapt existing PDFs. ABBYY's intelligent technologies ensure accuracy, save endless retyping and reformatting, and deliver the right results in no time at all!

Key Features & Benefits

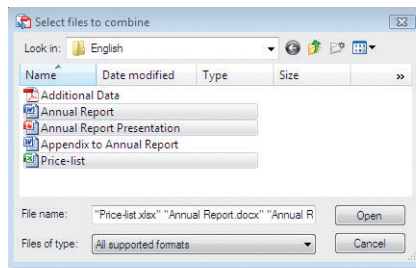

Convert PDFs into editable and searchable files

- Conversion of all types of PDF into MS Word, Excel®, HTML, TXT, and RTF – with original look, active links and hyperlinks (thanks to ABBYY OCR technology).
- **NEW:** Recreation of document structure – headers, footers, footnotes, page and line numbering placed in the appropriate MS Office application's fields (thanks to ABBYY's ADRT™* technology).
- **NEW:** Support for 184 languages, conversion of several files in parallel, support for MS Office 2007 formats (DOCX, XLSX).
- **Improved:** Comfortable viewer-style interface – with practical tools to improve the conversion results where necessary.
- Follows assigned password and security settings.

* ABBYY ADRT™ (Adaptive Document Recognition Technology) understands document structure and reproduces text and layout in the output document in native Microsoft formatting.

Create PDFs

- Directly from MS Office applications – via buttons in Word, Excel, PowerPoint® and Visio®.
- From any application via print function – with many options like meta data, watermarks, headers, footers, and others.
- **NEW:** From several different applications into one PDF
- **NEW:** Support for MS Office 2007 formats (DOCX, XLSX, PPTX, VSDX).
- **NEW:** Saving in PDF/A format – for long term archiving.
- Assign passwords and security settings – to protect your document.

Change and adjust PDFs

- Conversion of any type of PDF into Searchable PDFs with **NEW** functions: **Redaction** (removes information in existing PDF), **MRC Compression** (for up to 1:10 file size reduction) and **Page Stamps and Bates Stamping** (for better identification of PDFs).
- **NEW:** Conversion of any PDF into PDF/A format.
- **NEW:** Append a new PDF to an existing PDF.
